We trust that your journey of innovation will extend beyond this workshop. Iowa State offers a multitude of opportunities, each brimming with skills and experiences waiting to be explored.

Excited to try more of what the Student Innovation Center has to offer?

- Each of our state-of-the-art Makerspaces offers Making 101 sessions to prepare you for your own creations.
- Have an idea you’d love to see come to life? Join our Idea Jam to walk through the innovation process with other passionate peers (more information to come).

Interested in discovering your passions and leveraging your unique strengths? Get involved! Gain insights from a variety of viewpoints.

- Join one of Iowa State’s hundreds of Student Organizations
- Find on-campus employment
- Discover your College’s Start Something Network
- Try Undergraduate Research Opportunities

Explore your creative side! The innovation process starts with creative thinking and seeing the world from different perspectives.

- Try arts in the Workspace
- Look into the Interdisciplinary Design program
- Explore all of the Art on Campus
- Submit an application for Focus Art Grant

Enhance your academic portfolio by incorporating leadership and entrepreneurship. These immersive learning opportunities, both inside and outside the classroom, offer valuable insights into your entrepreneurial potential, allowing you to discover more about yourself.

- Leadership and Service opportunities through Student Engagement
- Leadership Studies Program for a certificate and minor
